Enloe is a myriad of unique **perspectives**. Down every hall, students are striving towards breaking the precedents set before them. Our students have created, performed, challenged, and participated, all in an effort to bring their own world view to Enloe. You'll find students who aspire to be the first in their families to attend college. You'll find students who balance a job and school to support their families. You'll find students who are intellectually curious and dream of influencing the world beyond graduation. The array of individuals from different socioeconomic, political, and ethnic backgrounds make Enloe remarkable.

Perspectives are visible at every concert, sports game, performance, and event at Enloe. Visual Arts students showcase their creativity through their original pieces and murals, adding color to our hallways. Athletes have their own style of play, introducing a new outlook to every sports team. Performing Arts students express their identities through their movement, voices, and music, bringing vibrancy to Enloe's atmosphere. During Charity Ball season, our perspectives shift by acknowledging the gratitude and privilege many of us have. MBSA students collaborate towards developing innovative solutions in the field of science and medicine. ESL students' versatility in language and cultural background provides a worldly perspective to their classes. Enloe embodies a vision of diversity that serves as a model for schools across the county and state. The unique viewpoint that students and faculty gain through their experience at Enloe carry us throughout our lives.

We are athletes, artists, thinkers, and dreamers. We are capable of raising over \$200,000 for local nonprofits. We notice injustice in our communities and take action. We dream about the endless possibilities of what we can accomplish. We strive to create a better world for future generations. We challenge ourselves to achieve more than what is expected of high schoolers.

We are Enloe.
